1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The following changes have been made to the subject application:

**CLAIM 4:**

Line 1, after "self-bias circuit", --providing a first bias voltage-- has been inserted.

**CLAIM 5:**

Line 1, "self-bias circuit", --providing a second bias voltage-- has been inserted.

The changes have been made to provide antecedent basis for "said first bias voltage" (last line of claim 4) and "said second bias voltage" (last line of claim 5) in order to comply with the 35USC 112, second paragraph and to place the application in a condition for allowance.

2. The following is an examiner's statement of reasons for allowance: the prior art of record fails to teach or fairly suggest first self bias circuit and second self bias circuit and their associated functions as called for claim 1, means for biasing said first and second protective transistors using a plurality of supply voltages, and a means for biasing said first and second protective transistors when one or more of said plurality of supply voltages are off, using a voltage at said I/O pad as called for in claim 6. Therefore, claims 1-7 are presently allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
